## A TASTE OF HOME

## ICE CREAM AND NOVELTIES

Magnolia® Tropical Ice Cream is one of our original creations. Since 1972, Magnolia® Ice Cream has been crafted in Northern California with rich California milk and authentic fruit purée sourced from the Philippines & Southeast Asia—bringing together the finest ingredients from both regions.

## UBE

### **A Filipino Classic We've Shared for Generations**

Ube has long been cherished in Filipino culture—celebrated for its naturally vibrant color, delicate sweetness, and unmistakably nostalgic flavor. Grown throughout tropical Southeast Asia, it is a beloved staple of Filipino desserts and celebrations, evoking memories of home, family, and tradition.

At Ramar Foods, Ube is part of our legacy. Through Magnolia®, we introduced the first Ube ice cream to the United States, bringing an authentic Filipino flavor to families building new lives here. Long before Ube entered the mainstream, we crafted it with care and intention for Filipino households seeking the familiar comfort of home.

For more than 55 years, we have continued to honor and evolve this iconic ingredient across generations. From our classic Magnolia® Ube to beloved variations like Ube Macapuno and Ube Cookies & Cream, as well as innovations such as our lower-sugar Bliss Ube line and Chocolate-Covered Ube Ice Cream Bar, each creation reflects decades of expertise and a deep respect for the traditions that inspired it.

Today, Magnolia® remains proud to help define what Ube tastes like in America—authentically Filipino, thoughtfully crafted, and rooted in community for more than five decades. As Filipino cuisine gains broader recognition across the country, we remain committed to sharing this iconic flavor with new audiences while honoring the culture and heritage from which it came.

## THE SECRET INGREDIENT TO FILIPINO CUISINE

Manila Gold® brings the flavors of pure calamansi to everyday meals. The tangy – sometimes sour, sometimes sweet – flavors of calamansi have been enjoyed in many Filipino households. Its versatility can be used as an ingredient in recipes, juices, or dips.

With its thin skin, aromatic oils, and brilliantly tart juice, calamansi has long been a defining flavor of Filipino cooking. As it ripens from green to yellow-orange, its delicate rind reveals a lively, citrus character that remains unmistakably bold. Our Manila Gold® calamansi is cold-pressed with care, preserving its authentic purity and delivering the true taste of the fruit—nothing added, nothing taken away.
